

NIGHTHAWK 75

TRI MODE | MECHANICAL KEYBOARD

2.4 G MODE

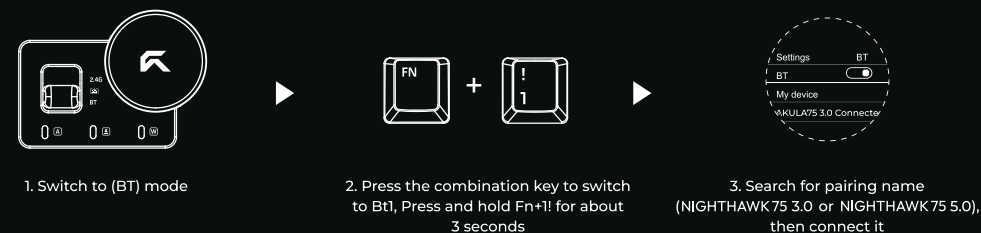

1. Switch to "2.4 G"

2. Plug the receiver into the device port

When you use it for the first time, the switch is dialed to 2.4G mode, and then plug in the USB wireless receiver, the keyboard will start to connect automatically, and when it is shipped from the factory, the default has been the code pairing

BT MODE

Note : The connection method for BT 2 and BT 3 is the same as BT 1. BT 2 can press the combination key (Fn+2@), while BT 3 can press the combination key (Fn+3#). When BT is reconnected, the blue light will light up for 3 seconds.

WIRED MODE
